

# Is It Safe to Fly?

less than **1%**  
of all passenger flights in 2021  
had an accident.

**3 Major**

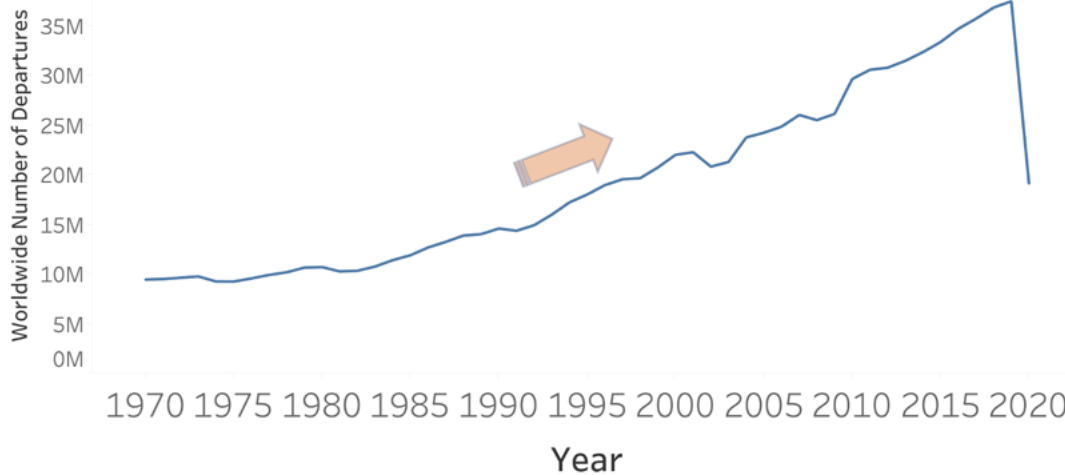

accidents  
occurred in  
2021. These  
happened in  
Russia,  
Philippines,  
and Indonesia.

Air Traffic has increased

**300%**

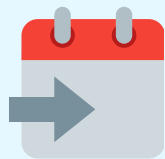

in the past 50 years

In the United States of America,  
there were only

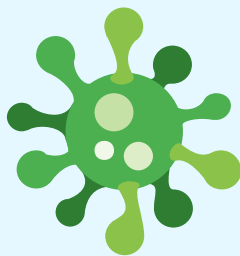

**2 Fatalities**

in 2021, none of them were commercial  
passengers.

**2022**

Air traffic decreased  
due to the Covid-19  
global pandemic but, it  
is expected to go back  
to the 30 millions in  
2022.

vs.

**6 million**

car accidents occur every year in the  
U.S. compared to 20 accidents in flying
